

MOCLOBEMIDE

moe-kloe-be-ride

What does it do?

Moclobemide is used to treat depression, and sometimes other conditions.

Before you start

- Tell your doctor if you have bipolar disorder.
- Tell your doctor if you are pregnant, planning to become pregnant, or breastfeeding.

How should you take it?

Take *moclobemide* regularly as directed with food and a glass of water.

What if you forget a dose?

If it is nearly time for your next dose, skip the missed dose and take your next dose at the usual time. Otherwise, take the missed dose as soon as you remember. Do not take two doses at the same time.

Can you take other medicines?

Some medicines available without a prescription may react with *moclobemide* including:

- cold and flu medicines containing phenylephrine (e.g. Sudafed PE®)
- omeprazole (e.g. Losec®)
- some migraine medicines, such as sumatriptan (e.g. Sumagran Active®)

Tell your pharmacist or doctor about all medicines or treatments that you may be taking, including vitamins, herbal products (e.g. St John's wort) or recreational drugs (e.g. ecstasy).

What side effects might you notice?

| Side Effects | Recommended action |
|--|---------------------------------|
| Suicidal thoughts Muscle twitching or shaking you can't control, confusion, heavy sweating, fever | Tell your doctor immediately |
| Anxiety, restlessness | Tell your doctor |
| Dizziness, trouble sleeping Stomach upset | Tell your doctor if troublesome |

If you notice any other effects, discuss them with your doctor or pharmacist.

Other information:

- Some people who take *moclobemide* may be very sensitive to tyramine which is present in some foods and alcohol (e.g. cheese, meat or yeast extracts (e.g. Marmite®, Vegemite®, Oxo®), pickled fish, broad bean pods, sauerkraut, salami and protein drinks). People taking high doses of *moclobemide* may need to avoid large amounts of these. Discuss with your health professional.
- It may take a few weeks for *moclobemide* to start working.
- Do not stop taking *moclobemide* without talking to your doctor first.
